

A glimpse at some officials of color, immigrant descent, and/or internal migration (“transplants”) from the North, South, Metro Boston, & Merrimack regions who served or were elected between 2015 and 2024-

Observing and reading about the 2023 Massachusetts municipal elections prompted me to revisit notes I originally wrote throughout the month of January 2020 after attending two inaugural ceremonies and reading about elected officials in several North of Boston cities and towns. As an immigrant educator and lay minister, a campaign volunteer since 1992, a former council candidate myself who has been living in Boston’s Metro North since 1973, I found it important for historical purposes to write down my January 2020 thoughts. While writing, other elected officials of immigrant descent from Metro Boston and Merrimack Valley came to mind. So I researched their work and backgrounds and added them to the compiled list.

It was historically remarkable to see on January 6, 2020 inaugural night and to read in the papers thereafter about immigrants of color and children of immigrants taking oath of office. From living in the same streets, to their parents being members of the same church community, to living in immigrant enclave complexes where my siblings, relatives, and I had lived, to receiving services in community agencies as new immigrants, to serving immigrants as part of their day time work, this new generation of leaders from several Metro North cities and towns who were sworn-in Monday 6 January, 2020 were not strangers to me at all. The only two elected officials from Malden, Everett, Cambridge, Somerville and Methuen I didn’t know prior to Monday January 6, 2020 was Jimmy Tri Le, who was sworn-in as Everett’s Ward 4 Councilor and Quinton Y. Zondervan, second term Cambridge City Councilor.
